

Withdrawal and Refund Policy

If a player wishes to WD from an event during the round for any reason the following policy is in place:

- 1) If the player has played 12 holes or more there is no refund. They will receive a double bogey on the holes they do not complete. The player will receive points for competing in the event and they will be drawn on a pro-am team. If the player signed up for the skins game prior to their round, they will remain in the skins game and are eligible to win a skin. The player must notify a TGF representative on site of their intentions to WD.
- 2) If the player has played fewer than 12 holes they may receive a refund minus their player fee for that event. If a player receives a refund they do not receive points for participating in the event. They are also not eligible for the skins game and are not drawn on a pro-am team. The player must notify a TGF representative on site of their intentions to WD.

If a player leaves the golf course during his or her round and does not notify a Tennessee Golf Foundation representative, he or she will receive a "No Card" for the event and will not be issued a refund. The player will receive points for participating in the event, but will not be eligible for the skins game or team game.
